Parties & More!*

# MACCRAY

## HARBOR

We hope you're ready for a fun holiday weekend! We have a bunch of activities around the marina this weekend, including our annual fireworks show on the 4th of July AND the opening of our golf simulators!

If you haven't already done so – please pick up your 4th of July parking passes in Member Services. Your normal car passes WILL NOT allow you entry to the marina on the 4th of July.

The Helm and N42 will also be open this weekend! Visit our website for our hours or to make a reservation (The Helm accepts reservations).

Dear Members,

I hope as you read this newsletter you are preparing for an enjoyable weekend either out on the water or using the amenities here within the harbor.

Because of the unfortunate increase in fuel, I know many of our members are staying closer to the marina. For this reason we have chosen to ratchet up the events for this weekend and others. Separating ourselves from our competitors is always at the forefront of our thoughts. Please review the varied events/happenings throughout the weekend. We have much for you to do.

You may have noticed we have been having music on the pool deck most weekends. While that was not at all within the carefully crafted budget, we have chosen to continue the music throughout the year. Further, the "Golf Dome" will open this weekend. Unfortunately, the LCC has not yet permitted us our liquor license for this venue. However, you may enjoy the facility sans our beverage service. Two of the three simulators are working, but as usual one is still waiting for parts that were delivered not working appropriately. That simulator can, however, be used as a driving range. We will have the facility staffed to help you. After the boating season we intend to offer member and non-member leagues, and are currently looking for a teaching pro to partner with in the off season or during non-operating hours.

Additionally, a majority of the electrical work has been performed for the arcade which, as you know, will be entered through the BEC hallway between the pool and men's restroom. The doors are to be cut out today, which leaves drywall, electrical finalization, paint and installation. We are moving it along as fast as possible in this difficult and disappointingly slow vendor environment.

Lastly, as we have witnessed a significant decline in many disciplines within the commodity market, I am for the first time at least hopeful that fuel/gas price increases will begin to abate. By my calculation, a barrel of oil has dropped 13% since June 22nd of this year. This is the busy driving season so I am left surprised and somewhat optimistic. Soon this should calculate into fuel/gas price decreases, if using the price of oil as your barometer. Let's cross our fingers.

In closing, please take the time to enjoy the weekend, and be safe no matter what you choose to do.

Kerry Reedy

MAINTENANCE —

*Dear Members,*

*Unfortunately, we have a serious problem and we need your help to solve. We have someone or multiple people who have repeatedly trashed all three bathrooms; Bathhouses 1, 2, and 3 (the fuel dock). They are throwing towels, toilet paper and of course human poop. If you suspect anyone is doing something inappropriate in the bathrooms, please contact Member Services and/or security immediately. We need your help to catch whoever is responsible. It's so hard to find good help to clean the bathrooms and we are super fortunate to have Maria. However, she is becoming upset and rightfully so. I have discussed this with management and are hopeful you can help us with this disgusting problem. The responsible party or parties and their boat will be immediately kicked out of the marina, without a refund.*

*Dominic  
Harbor Master*
